• Focus:
  Finding personal Interest to center experiences
Accepted students defer their enrollment for 12 months. Terms of the deferment for accepted students:

- Pay $200 admissions deposit to reserve their space by May 1, 2022.
- May not apply to any other colleges/universities nor earn college credit during their gap year.
- Deferments granted by the FSU Office of Admissions apply to general admission to FSU only. Students also applying to special, limited access, academic programs (dance, film animation, film production, music, studio art, or theatre) would also need to coordinate a gap year deferment with their specific academic program.
- Since you will not be enrolled at FSU, Florida Bright Futures funding would not apply to a gap year. FSU Scholarships awarded to the student will be deferred until the student enrolls the following year. Gap year students should confirm financial deferment eligibility with private or other non-FSU scholarship programs.
- Should complete the Free Application for Federal Student Aid (FAFSA) after October 1 during the gap year.

The Office of Admissions reserves the right to review the status of any admitted student, including those on a gap year, and to rescind its offer of admission if a student's academic and personal record does not meet the conditions of admission to the University.
